TAPESTRY SEGMENTATION PROFILE

+ WHAT IS TAPESTRY SEGMENTATION?

Tapestry Segmentation is a market segmentation system that classifies US neighborhoods based on their socioeconomic and demographic compositions. Tapestry is a system for classifying consumers and constituents using all the variables that can distinguish consumer behavior, from household characteristics such as income and family type to personal traits like age, education, or employment and even housing choices.

Tapestry Segmentation classifies US neighborhoods into 67 distinct market segments. Neighborhoods with the most similar characteristics are grouped together, while neighborhoods with divergent characteristics are separated. Tapestry Segmentation combines the “who” of lifestyle demography with the “where” of local neighborhood geography to create a model of various lifestyle classifications, or segments, of actual neighborhoods with addresses—distinct behavioral market segments.

+ WHO SHOULD USE TAPESTRY SEGMENTATION?

All companies, agencies, and organizations need to understand consumers/constituents in order to supply them with the right products and services and to reach them via their preferred media. These applications require a robust segmentation system that can accurately profile these diverse markets. The versatility and predictive power of Tapestry Segmentation allow users to integrate their own data or national consumer surveys into Tapestry Segmentation to identify their best market segments and reach them through the most effective channels.

+ TAPESTRY SEGMENTATION SUMMARY GROUPS

Esri’s Tapestry Segmentation provides a robust, powerful portrait of the 67 US consumer markets. To provide a broader view of these 67 segments, Esri combined them into 14 LifeMode Summary Groups based on lifestyle and lifestage composition.

- L1 Affluent Estates
- L2 Upscale Avenues
- L3 Uptown Individuals
- L4 Family Landscapes
- L5 GenXurban
- L6 Cozy Country Living

10E

RURAL BYPASSES

Open space, undeveloped land, and farmland characterize Rural Bypasses.

These families live within small towns along country back roads and enjoy the open air in these sparsely populated neighborhoods. Their country lifestyle focuses on the outdoors, gardening, hunting, and fishing. They are more likely to own a satellite dish than a home computer. Although a majority of households do have a connection to the Internet, their use is very limited. Those who are not yet retired work in blue collar jobs in the agriculture or manufacturing industries.

US Household // 1,664,000
Average Household Size // 2.54
Median Age // 39.7
Median Household Income // \$29,000

+ OUR NEIGHBORHOOD

- An older market, with more married couples without children and single households, the average household size is slightly lower at 2.54.
- Most residents own single-family homes, or mobile homes (Index 493).
- Most housing was built from 1970 to 1989; vacancy rates are higher due to seasonal housing.
- Residents live in very rural areas, almost entirely in the South.

10E

+ MARKET PROFILE

(Consumer preferences are estimated from data by GfK MRI)

- Typical of their country lifestyle, Rural Bypasses residents prefer trucks over sedans.
- To save money, households shop at discount department stores, such as Walmart, and warehouse clubs like Sam's Club.
- Magazines are a popular source of news and entertainment, particularly fishing, hunting, and automotive types.
- As satellite TV subscribers, they regularly watch sports programming as well as their favorite shows on CMT or TCM.

+ SOCIOECONOMIC TRAITS

- Education is not a priority in this market. Almost 30% have not finished high school; only 9% have a bachelor's degree or higher.
- Unemployment is very high at 14% (Index 161); labor force participation is low at 46% (Index 74).
- Income is primarily derived from wages; however, dependence on Social Security and Supplemental Security Income is above average.
- Religion, faith, and traditional values are central in their lives.
- Many have a pessimistic outlook of their household's financial well-being.
- They rely on television to stay informed.

+ HOUSING

Median home value is displayed for markets that are primarily owner occupied; average rent is shown for renter-occupied markets. Tenure and home value are estimated by Esri. Housing type and average rent are from the Census Bureau's American Community Survey.

Typical Housing:

Single Family;
Mobile Homes

Median Value:

\$85,000

US Median: \$177,000

AGE BY SEX (Esri data)

Median Age: 39.7 US: 37.6

I Indicates US

RACE AND ETHNICITY (Esri data)

The Diversity Index summarizes racial and ethnic diversity. The index shows the likelihood that two persons, chosen at random from the same area, belong to different race or ethnic groups. The index ranges from 0 (no diversity) to 100 (complete diversity).

Diversity Index: 59.9 US: 62.1

INCOME AND NET WORTH

Net worth measures total household assets (homes, vehicles, investments, etc.) less any debts, secured (e.g., mortgages) or unsecured (credit cards). Household income and net worth are estimated by Esri.

Median Household Income

Median Net Worth

AVERAGE HOUSEHOLD BUDGET INDEX

The index compares the average amount spent in this market's household budgets for housing, food, apparel, etc., to the average amount spent by all US households. An index of 100 is average. An index of 120 shows that average spending by consumers in this market is 20 percent above the national average. Consumer expenditures are estimated by Esri.

OCCUPATION BY EARNINGS

The five occupations with the highest number of workers in the market are displayed by median earnings. Data from the Census Bureau's American Community Survey.

LifeMode Group • Rustic Outposts

10B

ROOTED RURAL

Rooted Rural is heavily concentrated in the Appalachian mountain range as well as in Texas and Arkansas.

Employment in the forestry industry is common, and Rooted Rural residents live in many of the heavily forested regions of the country. Nearly 9 of 10 residents are non-Hispanic whites. This group enjoys time spent outdoors, hunting, fishing, or working in their gardens. Indoors, they enjoy watching television with a spouse and spending time with their pets. When shopping, they look for American-made and generic products. These communities are heavily influenced by religious faith, traditional gender roles, and family history.

US Household // 2,425,000

Average Household Size // 2.47

Median Age // 44.1

Median Household Income // \$38,000

+ OUR NEIGHBORHOOD

- This market is dominated by married couples, few with children at home.
- 80% of homes are owner-occupied: primarily single family (73%) or mobile homes (23%).
- Nearly one in five housing units are vacant, with a high proportion for seasonal use.
- Home values are very low—almost half of owned homes are valued under \$100,000.

+ MARKET PROFILE

(Consumer preferences are estimated from data by GfK MRI)

- They own a riding lawn mower, as well as a garden tiller, and have vegetable gardens.
- Only half of the households have a high-speed Internet connection.
- They use a satellite dish to watch CMT, the History Channel, and GSN (Game Show Network).
- Pets are popular—dogs, cats, and birds.
- Leisure activities include hunting and fishing.
- They listen to faith-based radio and gospel music.
- Many are on Medicare and frequent the Walmart pharmacy.

+ SOCIOECONOMIC TRAITS

- Thrifty shoppers that use coupons frequently and buy generic goods.
- Far-right political values on religion and marriage.
- Do-it-yourself mentality; grow their own produce and work on their cars and ATVs.
- Pay bills in person and avoid using the Internet for financial transactions.
- Often find computers and cell phones too complicated and confusing.
- Clothes a necessity, not a fashion statement; only buy new clothes when old clothes wear out.

+ HOUSING

Median home value is displayed for markets that are primarily owner occupied; average rent is shown for renter-occupied markets. Tenure and home value are estimated by Esri. Housing type and average rent are from the Census Bureau's American Community Survey.

Typical Housing:

Single Family;
Mobile Homes

Median Value:

\$104,000

US Median: \$177,000

LifeMode Group • Hometown

12C SMALL TOWN SIMPLICITY

Small Town Simplicity includes young families and senior householders that are bound by community ties.

The lifestyle is down-to-earth and semirural, with television for entertainment and news, and emphasis on convenience for both young parents and senior citizens. Residents embark on pursuits including online computer games, scrapbooking, and rural activities like hunting and fishing. Since almost 1 in 4 households is below poverty level, residents also keep their finances simple—paying bills in person and avoiding debt.

US Household // 2,305,000
Average Household Size // 2.25
Median Age // 40.0
Median Household Income // \$27,000

+ OUR NEIGHBORHOOD

- They reside in small towns or semirural neighborhoods, mostly outside metropolitan areas.
- Homes are a mix of older single-family houses (61%), apartments, and mobile homes.
- A majority, 51%, of homes are owner occupied. (Index 80).
- Median home value of \$88,000 is about half the US median.
- Average rent is \$600 (Index 62).
- This is an older market, with almost half of the householders aged 55 years or older, and predominantly single-person households (Index 139).

+ MARKET PROFILE

(Consumer preferences are estimated from data by GfK MRI)

- Small Town Simplicity features a semirural lifestyle, complete with trucks (domestic, of course), ATVs, and vegetable gardens.
- Hunting, fishing, and target shooting are favorite pastimes.
- A large senior population visit doctors and health practitioners regularly.
- However, a largely single population favors convenience over cooking—frozen meals and fast food.
- Home improvement is not a priority, but vehicle maintenance is.

+ SOCIOECONOMIC TRAITS

- Education: 65% with high school diploma or some college.
- Unemployment higher at 11.9% (Index 138).
- Labor force participation lower at 51% (Index 81), which could result from lack of jobs or retirement.
- Income from wages and salaries (Index 82), Social Security (Index 142) or retirement (Index 112), increased by Supplemental Security Income (Index 203).
- Price-conscious consumers that shop accordingly, with coupons at discount centers.
- Connected, but not to the latest or greatest gadgets; keep their landlines.
- Community-orientated residents; more conservative than middle-of-the-road.
- Rely on television or newspapers to stay informed.

+ HOUSING

Median home value is displayed for markets that are primarily owner occupied; average rent is shown for renter-occupied markets. Tenure and home value are estimated by Esri. Housing type and average rent are from the Census Bureau's American Community Survey.

Typical Housing:

10A

SOUTHERN SATELLITES

Southern Satellites is the second largest market found in rural settlements but within metropolitan areas located primarily in the South.

This market is typically nondiverse, slightly older, settled married-couple families, who own their homes. Almost two-thirds of the homes are single-family structures; a third are mobile homes. Median household income and home value are below average. Workers are employed in a variety of industries, such as manufacturing, health care, retail trade, and construction, with higher proportions in mining and agriculture than the US. Residents enjoy country living, preferring outdoor activities and DIY home projects.

US Household // 3,775,000

Average Household Size // 2.65

Median Age // 39.7

Median Household Income // \$44,000

+ OUR NEIGHBORHOOD

- About 79% of households are owned.
- Married couples with no children are the dominant household type, with a number of multigenerational households (Index 112).
- Most are single-family homes (65%), with a number of mobile homes (Index 523).
- Most housing units were built in 1970 or later.
- Most households own 1 or 2 vehicles, but owning 3+ vehicles is common (Index 146).

10A

+ MARKET PROFILE

(Consumer preferences are estimated from data by GfK MRI)

- Usually own a truck; likely to service it themselves.
- Frequent the convenience store, usually to fill up a vehicle with gas.
- Typical household has a satellite dish.
- Work on home improvement and remodeling projects.
- Own a pet, commonly a dog.
- Participate in fishing and hunting.
- Prefer to listen to country music and watch Country Music Television (CMT).
- Read fishing/hunting and home service magazines.
- Partial to eating at low-cost family restaurants and drive-ins.
- Use Walmart for all their shopping needs (groceries, clothing, pharmacy, etc.).

+ SOCIOECONOMIC TRAITS

- Education: almost 40% have a high school diploma only (Index 137); 41% have college education (Index 72).
- Unemployment rate is 9.2%, slightly higher than the US rate.
- Labor force participation rate is 59.7%, slightly lower than the US.
- These consumers are more concerned about cost rather than quality or brand loyalty.
- They tend to be somewhat late in adapting to technology.
- They obtain a disproportionate amount of their information from TV, compared to other media.

+ HOUSING

Median home value is displayed for markets that are primarily owner occupied; average rent is shown for renter-occupied markets. Tenure and home value are estimated by Esri. Housing type and average rent are from the Census Bureau's American Community Survey.

Typical Housing:

Single Family;
Mobile Homes

Median Value:

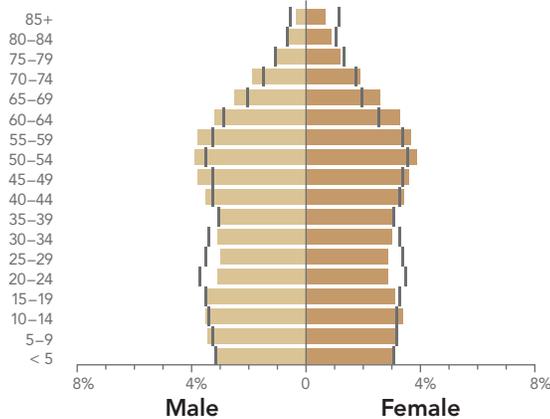

\$119,000
US Median: \$177,000

AGE BY SEX (Esri data)

Median Age: 39.7 US: 37.6

LifeMode Group • Hometown

12D

MODEST INCOME HOMES

Families in this urban segment may be nontraditional; however, their religious faith and family values guide their modest lifestyles.

Many residents are primary caregivers to their elderly family members. Jobs are not always easy to come by, but wages and salary income are still the main sources of income for most households. Reliance on Social Security and public assistance income is necessary to support single-parent and multigenerational families. High poverty rates in this market make it difficult to make ends meet. Nonetheless, rents are relatively low (Index 73), public transportation is available, and Medicaid can assist families in need.

US Household // 1,632,000

Average Household Size // 2.56

Median Age // 36.1

Median Household Income // \$22,000

+ OUR NEIGHBORHOOD

- Households are single person or single parent (usually female householders). Multigenerational families are also present.
- Homes are predominantly single family; values reflect the age of the housing, built more than 60 years ago.
- Over half of the homes are renter occupied; average rent is lower than the US average.
- Most households have no vehicle or one car, with a high dependence on public transportation.

12D

+ MARKET PROFILE

(Consumer preferences are estimated from data by GfK MRI)

- To make ends meet, consumers shop at warehouse clubs and low-cost retailers.
- Unlikely to own a credit card, they pay their bills in person.
- This market supports multigenerational families; they are often primary caregivers for elderly family members. On average, Modest Income Homes residents have a higher reliance on Medicaid.
- For entertainment, they listen to gospel and R&B music and prefer to watch BET.
- The recreational activity of choice for residents is basketball.

+ SOCIOECONOMIC TRAITS

- Almost a quarter of adults aged 25 or more have no high school diploma.
- Labor force participation is only 50%, with unemployment at more than double the US rate.
- Income is less than half of the US median income; one in three households are in poverty, dependent on Social Security, public assistance, and Supplemental Security Income.
- Consumers in this market consider traditional gender roles and religious faith very important.
- This market lives for today, choosing to save only for a specific purpose.
- They favor TV as their media of choice and will purchase a product with a celebrity endorsement.

+ HOUSING

Median home value is displayed for markets that are primarily owner occupied; average rent is shown for renter-occupied markets. Tenure and home value are estimated by Esri. Housing type and average rent are from the Census Bureau's American Community Survey.

Typical Housing:

Single Family

C. Kelly Cofer
President & CEO
The Retail Coach, LLC

About The Retail Coach

The Retail Coach, LLC, is a national retail analytics and locational intelligence firm that specializes in all aspects of retail market analyses and recruitment, from “macro to micro” trade area assessment to actively recruiting retailers on behalf of our clients.

Through its unique Retail:360 process, The Retail Coach offers a dynamic system of products and services that better enable communities to maximize their retail development potential.

Retail:360 Process

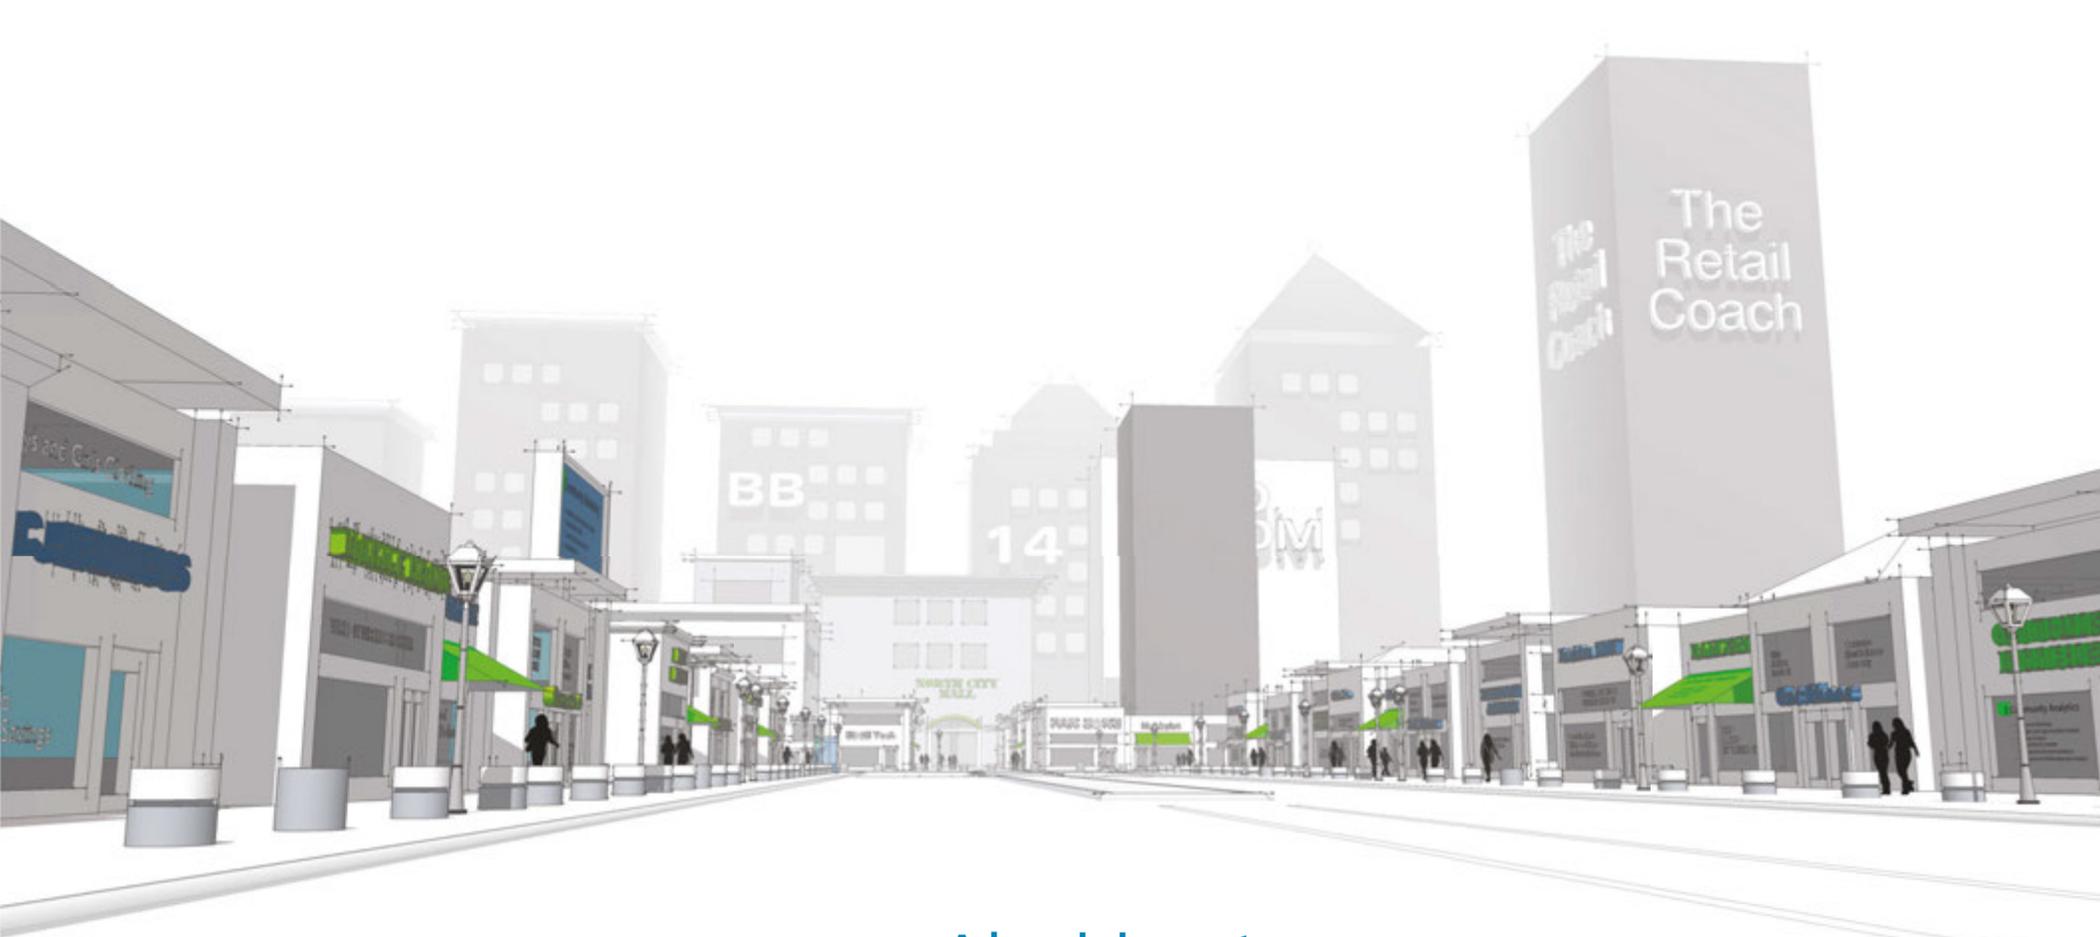

Providing more than simple data reports of psychographic and demographic trends, The Retail Coach goes well beyond other retail consulting and market research firms’ offerings by combining current national and statewide demographics and trend data with real-world, “on-the-ground” data gathered through extensive visits within our clients’ communities.

Every community is different, and there is no “one size fits all” retail recruitment solution. Compiling the gathered data into client-tailored information packets that are uniquely designed for, and targeted to, specific retailers and restaurants who meet the community’s needs helps assure our clients that they are receiving the latest and best information for their retail recruitment efforts — all with personal service and coaching guidance that continues beyond the initial project scope and timeline.

Our Retail:360 process assures that communities get timely, accurate and relevant information. Translating that data into the information that retailers need and seek assures our clients even better possibilities for tremendous retail growth and success.

The Retail Coach - It’s not about data. It’s about your success.
